

WRNSC Clothing Policy

Jackets

Membership

WRNSC offers jackets for sale to members. We purchase these jackets in bulk to get a significant discount. As a not-for-profit club, we offer these jackets to members on an at-cost basis, including taxes and shipping. We pass on the savings from the bulk purchase to members.

Coaches & Volunteers

All NCCP trained coaches who instruct WRNSC youth programs are eligible to receive a 40% discount on the purchase of club jackets. This discount is also available to long-time club volunteers in non-coaching roles (10+ years service). This discount is not available to club members who, at the time of purchase, are on the board of directors. This discount is also not available to paid instructors of adult lessons, unless that instructor also coaches WRNSC youth programs.

The purpose of the coach & volunteer discount program is both as a recognition of service to the club and to encourage coaches to wear club apparel while instructing. This will make it easier to identify coaches as well as improving the appearance of professionalism within our programs. Due to these goals, this discount only applies to club jackets, not to racing suits.

Athletes

Athletes in the Track Attack Racing program will be offered a 40% discount on the purchase of club jackets. The purpose of this discount is to encourage team members to purchase the jacket to enhance team unity and to promote the club at out-of-town races.

This discount is only available to athletes in the "Track Attack Racing" program, not to athletes in the "Track Attack Development" or "Track Attack Basic" programs. Athletes in the Racing program pay a higher fee, participate in more training sessions, and are expected to attend more out-of-town races than those in other programs.

Resale

WRNSC recognizes that youth members will outgrow their jackets and wish to purchase a larger size. Since jackets are potentially high-wear items, we are not offering a rental program. Instead, WRNSC aims to facilitate a resale market for club jackets. This will allow members to recover some of the purchase cost, with an amount appropriate for the wear on the jacket.

2018/19 Pricing

Adult jackets are \$118.65 and youth jackets are \$107.35.

Racing Suits

In addition to club jackets, WRNSC also orders racing suits in bulk. Racing suits are offered to athletes in the Track Attack Racing program on a rental basis. Since racing suits are a lower-wear item, the club will absorb the risk of premature wear.

Racing suits are prioritized for the racing program since these athletes will be representing our club at out-of-town races more than those in other programs. At the discretion of the Clothing Manager, racing suits may be offered for rent to athletes in other programs, but only if the club has sufficient inventory after all members of the racing program have received their racing suits.

The Clothing Manager will schedule sizing sessions to set next year's order, fitting and pickup dates, as well as return dates.

General members of the club may purchase racing suits when the club is ordering new suits from the vendor. These requests should be placed in the spring before our order is submitted.

2018/19 Pricing

The rental fee for racing suits is \$40 per season.
